

## **FIELD ENGINEER**

Rural electric distribution system located in mid-western Oregon seeks qualified candidates for the position of field engineer. Selected candidates should have a bachelor's degree in an electrical engineering field or equivalent and four years experience in electric distribution utility design procedures and related engineering experience. The field engineer provides engineering services, assists the director of engineering with the design of substations, transmission and distribution lines. Plans, organizes, assigns, and supervises work. Oversees and meets with large commercial accounts as needed, supervises line stakers' activity with system design improvements to serve customers, subdivisions and commercial/industrial complexes. Position requires neat well-groomed individual with pleasant personality and the ability to work well with the public, customers and employees. Must be highly self-motivated and able to adapt to a variety of working conditions. Excellent benefits package. Salary commensurate with experience. Please send resume with salary history to: Human Resources, Consumers Power, Inc., PO Box 1180, Philomath, Oregon 97370; or email to: [nancya@cpi.coop](mailto:nancya@cpi.coop).  
Position open until filled. [www.cpi.coop](http://www.cpi.coop).
